

88 TACTICAL | ELITE TRAINING

TACTICAL MEDICINE INSTRUCTOR COURSE

OVERVIEW

The Tactical Medicine (TacMed) Course for Law Enforcement Instructors combines both live-fire and tactical medicine exercises in a 2-day, 20-hour class. Our curriculum, in accordance with the Principle Guidelines of Instruction set by the Committee for Tactical Emergency Casualty Care (TECC), covers the fundamentals of tactical medicine, the use of a basic trauma kit, treating hemorrhage, chest trauma, and other life-threatening injuries. This course also covers fighting to get to the wounded, fighting while wounded, performing rapid patient assessment and treatment while under duress.

On day one, students attend the Basic TacMed Course (Medical Module Only) to become familiar with the curriculum. On day two, students are assigned specific subjects, including firearm skills and drills, to teach, demonstrate and direct on the range.
